

Program Manager – TBI-CPDM

With support from Department of Innovation and Technology, Government of Karnataka, Society for Innovation and Development (SID) is setting up a Technology Business Incubator (TBI) in the area of Medical Technology and Geriatric Healthcare at Centre for Product Design and Manufacturing, Indian Institute of Science, Bengaluru.

The program manager will work together with TBI Project Management Committee (PMC) on the following:

1. Plan and manage TBI activities in coordination with PMC
2. Create and execute programs for selection and mentoring of TBI incubates in coordination with PMC
3. Oversee renovation and maintenance of TBI space and associate infrastructure
4. Oversee procurement, setup and maintenance of equipment
5. Carry out record keeping and documentation of TBI activities and outcomes
6. Liaison with funding agencies and other stakeholders

Required skill:

For this position, we are looking for a person with a technical background and relevant substantial management experience in medical device industry or start-ups. Salary will be commensurate with background and experience. Salary including performance variable compensation can go up to 1 lakh per month based on candidate profile. The position will be initially for one year, extendable for another year or more, based on performance. The minimum qualification is graduation in an engineering discipline, a desirable postgraduate qualification in management, and at least 5 years of relevant industry experience.

The deadline for receiving application is **4th July 2018**. The application, to be emailed to Prof Amaresh Chakrabarti (at ac123@iisc.ac.in) should include an expression of interest and an updated CV. Job interviews are planned to be held second week July. The selected candidates will be expected to join at the earliest possible.
